## 219,964 MEN REGISTERED FOR MILITIA

## More Than Expected By Ministry

The young militiamen who have answered the call are found, analysis of the figures on June 5, to have exceeded in number the Ministry of Labour's expectations. It had been estimated for Mr. Ernest Brown that the 20-21 male population was roughly 250,000.

The total registrations at the 1600 exchanges was 219,-964. This left only about

It was calculated that some 50,000 would be exempt, either because they were in the Territorials or the Regular Forces or were obviously incapacitated for serving. FEW DAYS' GRACE

The proportion of men who have failed to register is so small that the Ministry are giving them few days' grace before deciding whether action shall be taken.

"We are taking the line that many men may have good reasons for not appearing on the appointed day," the writer was told. . They may have been abroad, or

ill or have met with an accident. They will be given reasonable time and then; if nothing is seen of them, or heard from them, the Minister can exercise his right to prosecute.

"If he does there will be, on conviction, a fine of £5 and the man will have to register." The first batch of notices to appear for medical examination went out on June 5.

150 MEDICAL BOARDS They are being issued in batches of between 40,000 and 50,000 at intervals of two months. The notices state the date and place of appearance. There will be 150 medical boards

Conscientions objectors registered so far number 3,775, but there are 12 days left in which to make such application.

Lord Samuel added that another 1,400 "permit cards had been "sent to Germany; and that these young Jews would be brought over here "as soon as transport facilities allowed." Thus, he added proudly, the total number of refugee children in this country, or due to arrive was 8,000.

He thought that was a somewhat remarkable achieve ment!

The "generosity" of a section of the British nation had enabled these children to be brought over. he said, and added that he had been informed by Sir Charles Stead that if one were to translate into cash value the amount of hospitality, etc., received, the total would be in the neighbourhood of £2,000,000.

## PAST STUDENT TEACHERS' UNION FORMED

Not Opposition To Association

The Past Student Teachers' Union was inaugurated on Saturday afternoon following a meeting held at the Hotel Cecil.

The alm of the Union, it was stressed, was to represent the needs of the student teachers but not intended as an opposition party to the present Teachers' Association or to intimidate the Education Department and heads of the schools,

Mr. Chung Wah-leung presided at the gathering.

It was pointed out by a speaker that one of the teachers had been teaching for 18 years and up to the present his salary was only \$180, a month, notwithstanding the fact that he had a wife and an aged mother and family of eight children to support.

It was opined that the present Teachers' Association, though efficient, really served the needs of the past student teachers. Most of the members of the Association were persons with degrees or in Government Schools and the forthcoming Government scheme for exercising more control over the grant-in-aid schools did not affect them.

### NO TOLERATION OF DOMINATION

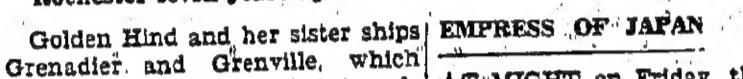

LONDON, July 2 (Reuter)-"We will not tolerate domination by another, or loss of our liberties, or dictation in our affairs and if that is attempted, we are ready now as a united nation to defend ourselves and to that end we shall gather all allies and resources available," declared Six Stafford Cripps, K. C., speaking at Forest Dean.

Sir Stafford Cripps continued "No one at this moment doubts that there is a very grave danger that a world war will be breaking out within the next three months, but however terrible the prospect, the great majority of our people are prepared to make any sacrifice for those things which they hold dear and believe worth while in the world."

## OF POLES INTO INFILTRATION FREE CITY: ACT OF VIOLENCE BE TAKEN AS ACT OF WAR

LONDON, July 1 (Reuter and T/Ocean)-While the French Premier, M. Edouard Daladier, was telling the Council of Ministers in Paris to-day that the International situation "remains very serious," a spokesman of the Polish Government in Warsaw announced that Poland had already started to take countermeasures to the Nazi moves in Danzig.

Stating that Poland was watching the latest developments in Danzig "with close attention," the spokesman added that Poland would meet each further Nazi move with appropriate retaliation.

While Poland had no intention of provoking trouble, in spite of the present provocative Nazi actions, Polish youths had been sent to Danzig as a check to the large influx of German Storm Troopers. Infiltration of Poles into the Free City commenced to-day.

Rumours were again current in London and Paris to-day that Nazi coup may be expected in Danzig this week-end, but "there is no official confirmation.,

### Press Comment

Meanwhile, in London, "The Times" in an article by its diplomatic correspondent, later stated semi-officially to represent the views of the British Government, deals with the possibility of the imminent outbreak of a crisis owing to the encouragement by Berlin of an allegedly spontaneous movement in Danzig for incorporation in Germany.

"The Times" says that any such attempt to force Poland into the position of aggressor would be a transparent manoeuvre.

### An Act Of War

The diplomatic correspondents of 'The Times" and other newspapers were invited to the Foreign Office and handed the above state.

Both Britain and Poland, it is stated, will regard any act of violence—either inside or outside the Free City-as an act of war.

## MAKING FACTORIES INVISIBLE FROM THE AIR AT NIGHT

A system of artificial lighting, for rendering factories invisible from the air at night, has been developed by Messrs. Metropolitan-Vickers Electrical Company, Limited, of Trafford Park, Manchester. The system involves two components—a sodium source fitted with an enveloping filter, and a lacquer in the complementary colour of the emitted light, which is sprayed on to windows, roof lights, etc.

The lamp and filter produce a narrow band of monochromatic yellow light to which the lacquer is opaque, and it is claimed that their combined use does not allow any visible radiation to penetrate into the outside atmosphere.

The lacquer is sprayed on to the outside of the glass, forming a matt surface which prevents light from outside sources being reflected on it, and yet allows sufficient daylight (10 per cent.) to pass for general machine work and assembly processes to be carried out on a normal day without recourse to artificial lighting.

## SHARE MARKET . REVIEW

HONGKONG SHAREBROKERS' **ASSOCIATION** 

Hougkong, June 30, 1939.

The market has remained quietly steady throughout the week. Holders of shares displayed no anxiety to sell and buyers, on the other hand, have not been willing to raise their bids. Business has, therefore, been dull with a limited turnover. The market is rather more active at the close and the undertone is steady.

There has been a sustained demand for H.K. Banks around \$1330 but shares were difficult to obtain. A fair turnover has been reported in Lands at \$351 with further enquiry at this figure and sellers at \$351. Trams also came in for attention and changed hands at \$16.60 and \$16.50. Shares were obtainable at \$18,60. Watsons were

The market displayed a steady undertone with a good demand for "actuals" by consuming centres. There were also fair enquiries

for futures by dealers and speculators in evidence. The better sentiment was attributed to more reassuring political. news from Europe as well as to a continuance of encouraging business prospects in U.S.A., although Motor-car production showed a slightly more than anticipated decline for the week ending June 30, which however, was ignored by the market-

### NEW YORK COTTON

The market again displayed ar easy appearance at to-day's opening, with a lower adjustment of prices. However, a better tone was evinced later, and the market became quiet but firm. Prices advanced on trade and speculative buying. "Bear" covering also imparted some impetus to the advance." Some strength in "spots" was in evidence. However, uncertainty continued to prevail over the subsidy question. On the whole, price movements were confined to narrow range.

Prices moved lower on hedge-selling and profit-taking. Reports of heavy receipts were the cause of general liquidation.

Commission. The American claims amount to £10,000,000. Bonds posted in Germany as surety are now said to be worthless, and little hope is entertained of obtaining payment.

The principal claimants were: The Lehigh Valley Railroad Company, Bethlehem Steel Corporation, Canadian Car and Foundry Company, and insurance underwriters.

## Tsui Wai-pui Beats V. T. Wang In Fine Singles Match At C.R.C. Exhibition

## SCINTILLATING RALLIES SEEN IN THREE SETS

## Visitor's Cramp Prevents Appearance In Doubles

(By ... TAC")

Justifying the tremendous enthusiasm that had been evinced in many quarters in their match, V. T. Wang, ex Shanghai champion now in Hongkong, and Tsui Wai-pui. Colony champion and Chinese Davis Cupper, gave perhaps the best exhibitions of singles tennis seen locally this year, when they met at the Chinese Recreation Club in the course of a series of matches organised in aid of charity.

The men were very evenly matched and Tsui's victory was one of the best things he has done for a long time, as, for some time past he has been playing in a class below his own. Yesterday he found himself up against a man who always played as well as he did and at times was his superior.

fore, for rising to the occasion, meeting brilliance with brilliance, verve with verve. and, last but not least, stamina with stamina. In the final analysis it was perhaps this that gave him the victory.

Played in an atmosphere that was nothing short of torrid, with a broiling sun overhead and little or no breeze, the three sets of fast. showed signs of distress.

After the second set, with the scores level, there was some talk of stopping the match there, but it was decided to have an interval of ten minutes and then play the final set.

### AMAZING REVERSAL

the visitor ran off to a 3-1 lead, Lau and Mrs. Chui 6-4, 6-4. playing well within himself.

But thereafter there was an amazing reversal, Tsui rattling off five games in a row to go out at 6-3. It was now the turn of the Northern champion show distinct signs of weariness and, except for a last "kick" at the end, he was hardly in the picture once 3-3had been called.

## THE PLAY

The best tennis was seen in the first set, which Wang won at 8-6. Practically everything that goes to make up the perfect tennis match was there, with first one man and then the other dominating the exchanges.

Wang's main strong points were a standing forehand drive off service, frequently catching the local man unprepared, and an agility at the net, which, with the added advantage of his reach both sideways and overhead, made passing him a difficult task.

Tsui found that trying to pass him straight down the line, or cross-court was well-nigh impossible and in the latter part of the game resorted to a well-concealed lob, often taken on the volley, which proved far more successful

The local champion on his part pulled off some extraordinary shots—as usual mostly when he was in an "impossible" position. His forte was an acutely-angled length drive which at times literally left his opponent standing, and there were some lovely chop shots which, though Wang at times also used effectively, he could not equal in delicacy of execution, and nicety of placement.

## More credit to him, there- Doubles Rearranged: Wang Has Cramp

Following the match it was stated that Wang had developed cramp and would not take part in the doubles, which was eventually played between H. D. Rumjahn and Tsui Yun-pui and Tsui Wal-pui and Szeto Bick, and won by the former

The singles champion was the hard-fought tennis must have best player on view, but both he taken strong toll of both men, and his partner were at times Both looked fit as they took the erratic and gave the opposition court and it was not till we into opportunities which they were not the second set that, first the local slow in seizing.
